BLACK SWAN HUNTING: KILL OR BE KILLED

Presented by

Dr David Hillson PMI-Fellow HonFAPM FIRM FRSA CMgr FCMl

The Risk Doctor

david@risk-doctor.com

The future is uncertain! This makes some people very nervous and worried, while others see it as a challenge to be overcome. Either way, we cannot simply sit back and wait for the future to arrive. Instead we need to engage proactively with the future, seeking to position and prepare ourselves to succeed.

The problem is that many future uncertainties are unknowable, leading to emergent risks that catch us unawares. These emergent risks are popularly known as Black Swans, and it is very hard for us to prepare for them in advance. Or is it?

In this keynote presentation, David Hillson explains how to identify the conditions that lead to emergent risk, and how to develop robust responses for whatever might arise. Resilience is the key, building flexibility and capacity into our organisations and projects, so that we can bounce back to success, even if a Black Swan emerges in our midst.

Emergent risk matters, and unknowable does not mean unmanageable. Discover how to predict when a Black Swan is coming your way, how to protect your organisation and its projects from unexpected risk, and how to position yourself to survive and thrive. Kill the Black Swans before they kill you!

Biography:

Dr David Hillson is The Risk Doctor, and he leads The Risk Doctor Partnership. He is recognised internationally as a leading thinker and expert practitioner in risk management. He writes and speaks widely on the topic, with ten books and many papers.

David has received multiple awards for his work in developing risk management over many years, including being recognised as the inaugural "Risk Personality of the Year" (2010-11) by the Institute of Risk Management (IRM). He has received honorary fellowships from the Project Management Institute (PMI®) and the UK Association for Project Management (APM), and he has been elected as a Fellow of the IRM, the Royal Society of Arts (RSA), and the Chartered Management Institute (CMI).
